;Patent No. 5223418
; Patent No. 5223418
; APPLICANT: ARCURI, EDWARD J.;BRAWNER, MARY E.;DONOVAN
; J.;GERBER, ROBERT G.;KELLER, JOHN A.
; TITLE OF INVENTION: METHOD OF IMPROVING THE YIELD OF
;HETEROLOGOUS PROTEINS PRODUCED BY STREPTOMYCES LIVIDANS
; NUMBER OF SEQUENCES: 2
; CURRENT APPLICATION DATA:
; CURRENT APPLICATION DATA:

EDWARD J.; BRAWNER, MARY E.; DONOVAN,

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           320
                                                                                                                                                                                                                                                                                                                                                     Sequence (September 1977)

Patent No. 6607879

GENERAL INFORMATION:
APPLICANT: Cocks, Benjamin G.
APPLICANT: Susan G. Stuart
APPLICANT: Susan G. Seilhamer
TITLE OF INVENTION: COMPOSITION FOR THE D
TITLE OF INVENTION: EXPRESSION
NUMBER OF ESQUENCES: 1508
CORRESPONDENCE ADDRESS:
ADDRESSE: INCYTE PHARMACEUTICALS, INCORTER DRIVE
